COMMISSIONER'S FOREWORD

Sitiveni T. Qiliho (Brig. Gen)
CM, MSD, MSc Def, (DSS), psc
Commissioner of Police

I am pleased to present the Fiji Police Force's (FPF) Annual Crime Statistics Report for 2016. In doing so, I am privileged to declare that the Fiji Police Force, together with our partners and the community, continue to make a significant contribution to ensuring our country is a safe place to live, work and conduct business.

Amongst the major highlights of Crime Statistics in 2016, our policing strategic programmes contributed to a 3% decrease in crime against children, 6% decrease in crime against women and 4% decrease in overall crime rate. Intelligence, Operations and Community Policing based initiatives on drug operations consumed most of our resources. Nonetheless, our combined efforts contributed to the successful registration of more drug related offences in the Western, Southern and Northern divisions. We are grateful for the remarkable support from the communities that enabled these successful operations.

Despite these positive outcomes, we continue to face challenges daily, as the concerning issues of serious crimes, coupled with domestic violence,

crime against women, children and sexual offences continue to challenge our policing approaches as we strive to better our service delivery. Our efforts to tackle domestic violence and sexual offences on women and children through the DUAVATA community policing concept, and other concerted efforts with our stakeholders, have seen more people having the courage to come forward and report crimes. Fiji Police will continue to harness collaboration with government agencies, faith-based organizations and Non-Governmental Organizations (NGOs), to reduce the social ills on these heinous crimes.

Concurrently, the Fiji Police shall continually strive to invest heavily in technological advancement which shall enable us to advance our operational and mobility capability. The launch of the Geographical Information System (GIS) and the installation of the first-hour Video Recorded Interview (VRI) machines are legislative requirements, embraced with optimism as these are tools of trade that will advance our compliance and standards, quality and effectiveness of service delivery to our communities.

The Fijian Government's support towards our fight against crime has been overwhelming. The provision of government leased vehicles has enabled us to effectively conduct our work promptly. We are more aligned to our operations and strategies accordingly. The maintenance of law and order and providing a safe community for everyone remains our priority.

I strongly believe that public trust and confidence in Police is vital in the functioning of the Fiji Police Force, underpinned by good work practices, backed by data, research, technological and scientific interventions are bound to improve our decision-making and service capabilities.

In conclusion, I believe that we made further strides towards service delivery in organizing through re-engineering, for safer communities together, and we assure that we will continue to do so.

Sitiveni T. Qiliho (Brigadier General)
Commissioner Of Police

1.0 CRIME STATISTICS INTERPRETATION

Crime statistics analysis worldwide, has remained a challenging, yet critical element of decision-making to police officials. As the data collated varies and evolves around multiple factors, crafting crime data-sets is a cumbersome activity. Crimes reported on various time-lines (years) of previous occurrences are often reported in the current year. Subsequent arrests that roll-over to the following year, also has a bearing on detection rates. Likewise, the number of counts per crime offence committed also has a large impact on the percentage(s) and/or number or units of crimes committed. The Fiji Police Force [FPF] continually faces these dilemmas in maintaining and reconciling crime statistics.

The Fiji Police Crime Statistics Unit has for many years become the central data collation, and analysis centre for the organization. There are however, other units within the organisation, such as the Criminal Investigation Department (CID), Juvenile Bureau, and Operations Headquarters [Ops HQ] who either submit or manage data from the frontline points of contact at police stations and community posts. Fiji Police crime data, are mostly classified or tagged to the definitions and classifications prescribed under the legislation such as the *Crimes Act*, *Minor Offences Act* and other relative Acts.

The credibility of the Fiji Police data, remains with the absolute integrity and accuracy of human led inputs to systems or database handling automated frameworks. Minimization of human influence and contact post-data entry, proves significant and appraises credibility of such processes. The FPF through the Statistics Unit, strives for such an intervention, where publication such as the *FPF Annual Statistics Report 2016*, remains a credible document, worthy of public consumption, record and reference.

A structured approach as to how, Fiji Police handles and converts data into meaningful decision-making tools remain essential. A summary of definitions, criteria and guidelines to the compilation of the Fiji Police Data/Statistics is mentioned hereunder.

1.1 CRIME STATISTICS COLLECTION

As stipulated in the *Force Standing Order* [FSO], the Fiji Police Force's Annual Statistics Report is derived under the following means:

- Receiving Reports in Police Stations [35], Community Posts [85], and other units or intra/inter-agencies which provide information and data; and
- Daily Crime Reports [DCR] - reports categorized as Crimes Registered (CR) at station level which are submitted daily from all 35 Police Stations in Fiji. These are daily occurrences of crime facts and figures that are fed from the stations to the divisional headquarters, and the Crime Statistics Unit at the Directorate of Planning, Police Headquarters.

1.2 OFFENCES CLASSIFICATION

The data compiled in this document (Fiji Police Annual Report) is the crime data which are captured, translated and classified under the Crimes Act, 2009 (formerly Crimes Decree 2009). In this, there are 250 different offences which are classified under a cluster of five (5) major categories.

Appended below are the five (5) major categories of criminal offences:

1. Offences Against the Administration of Lawful Authority (includes Treason and Other Offences Against Government Authority; Other Offences against Public Order; Offences against the International Order)
2. Offences Against Public Morality (includes Sexual Offences, Prostitution Offences, Abortion Offences)
3. Offences Against the Person (includes Common Assault)
4. Offences Against the Property (includes Theft, Robbery, Burglary and Fraudulent Conduct)
5. Other Miscellaneous Offences

It should be noted that there are other offences (e.g. money laundering) not classified under the Crimes Act, 2009, which are also criminal in nature and have breached other Acts such as the Financial Transaction Act, Copyright Act etc.

1.3 Reference Period

The Crime Statistics Report is prepared annually for the period from 1st January to 31st December per calendar year.

1.4 Definition of Crime

Crime is an offence, classified as an act or omission forbidden by law for which the state enacts penalty punishable by law.

1.5 Investigation

Is the search for the truth in the interest of justice and in accordance with the specifications of the Law.

1.6 Reported Offences

Reported offences are offences which are reported to the Police and appropriate entries are entered in the Complaints Register. These are the data that gets analyzed and reflected in briefs and reports such as the 'Fiji Police Annual Statistics Report'. Any other perceived information or incident occurring in the community that are not reported does not necessarily amount to a data.

1.7 Detected Offences

All offences/ crimes are deemed to be detected under the following circumstances:

- The offender has been arrested and/or produced before a court of law, or summoned;
- The offender has been dealt with in accordance with the laws of the land, and authority vested to the Fiji Police Force such as cautioning juveniles; and
- The offender is a deceased.

1.8 Data Source

Fiji Police Force Crime Statistics are compiled from the data received at the office from the 35 Police Stations located within the four divisions namely: Southern, Western, Eastern and Northern division, other officers, such as CID Headquarters.

1.9 Monitoring & Evaluation [M & E]

Fiji Police Force has a variety of Monitoring and Evaluation [M & E] methods in its Criminal Data process framework. First and foremost, the measure of performance is tagged to the institutional Annual Corporate Plan [ACP] through the Key Performance Indicator(s) [KPI]. These data form the core benchmark indicators of performance and productivity. The KPIs drive performances in personnel all throughout the year. In addition, initiated from the Planning Office, these data sets are monitored on a monthly and quarterly basis through the process of verification. The result of achievements, shortfalls and improvement of gap areas are handed to the Commissioner of Police, who then discloses these results in his quarterly address to all members of the Fiji Police. The same is also made public through a media release. Furthermore, daily monitoring of performance based on data takes place on the bi-weekly skype briefs from the four divisions. Finally, the Statistics Unit has also embarked on issuing weekly Bulletins in the 'Force Routine Order', a form of newsletter in the Fiji Police Force.

2.0 Disclaimer

There is no intent to discriminate, vilify or malign certain segments of our society's victim(s) and/or offender(s) of crime on ethnic, gender, age, geographical or other classification based distribution. The publisher acknowledges that these factors are sensitive in nature, however, for analysis and better demonstration of data relative to Fiji, such is portrayed in this Annual Report.

2.1 Percentage Change Formula

Please note the Percentage Change Formula:

$$\text{Percentage Change (\%)} = \frac{\text{Current Value minus Previous Value}}{\text{Previous Value}} \times 100$$

if the previous value = 0, the answer will be #DIV/0! error as its percentage.

2.0 CLASSIFICATION OF CRIME REPORT & INTERPRETATION

The cases in this report are stipulated in the Crimes Act (Decree No. 44 of 2009) and are investigated by the Criminal Investigation Department, (CID), Uniform Branch (UB) personnel, other Specialised Units and Task Forces. These data excludes those offences that are also criminal in nature but are investigated and prosecuted by other agencies such as FICAC, FIRCA etc. In such cases, these crimes are not reported to police and does not form part of our data-set, and may not be the ideal reflection of the true extent of crimes in Fiji.

1. CRIME REPORT (CR)

These are reports and complaints that are classified as offences under any Section of the Law, and may contain strong elements of prima-facie (criminality based on enough evidence) to instigate investigation and prosecution.

2. NO CASE IN LAW (NCIL)

These reports and complaints are not classified as offence(s) under any Section of the Law. However, complainants are given credible advice and guidance to explore other causes of actions, like reconciliations, generating community cohesiveness, well-being, partnerships and harmony etc.

3. CIVIL CASES

These are complaints which are civil in nature and can only be pursued by the complainant through civil processes. The police have no legal jurisdiction to investigate such complaints. These include seeking own legal advice through solicitors, and other legal frameworks, such as the Small Claims Tribunal etc.

4. TRIVIAL (Trivial IR)

These are complaints which are trivial in nature and do not necessitate any formal investigation. Initial action(s) on attending these complaints are however undertaken in order to secure safety, security and harmony between the parties involved.

5. LOST & FOUND PROPERTY (L&FP)

These are complaints in nature of Lost and Found property and are registered under the Lost and Found Register.

6. ACCIDENT REPORT (AR)

These are reports of road accidents which occur on public roads in Fiji. The figures under these category are captured under the Annual Traffic Statistics Report.

7. TRAFFIC BOOKING REPORT (TOR)

These are traffic booking cases for traffic infringements.

8. UNIFORM BRANCH REPORT (UB)

Offences under the Crimes Act and Minor Offences Act are often investigated by the Uniform Branch personnel, and prosecuted summarily per charge and/or summon process.

9. POLICE ENQUIRY PAPER (PEP)

It is a docket (police enquiry paper [file]) prepared to determine whether a case is civil or criminal in nature after an investigation is conducted. As enough evidence (prima-facie) is ascertained, the file is then converted to full criminal investigation enquiry (CR).

10. REFERRAL TO OTHER STATIONS OR AGENCIES

These are reports that are referred to another police station for investigation since the offence was committed within that station or court boundary/jurisdiction respectively. In other cases, there may be a core government stakeholder who may have been the rightful agency to have attended to such complaints or calls to service(s). These may include: Health, Agriculture, Customs, Welfare, Municipalities, Roads Authority, Education, Non- governmental agencies or other essential service providers etc.

3.0 CRIME HIGHLIGHTS - YEAR 2016

During the year 2016, a total of 19,998 crime cases were recorded, and registered as active police investigation files. Comparatively, in 2015, 20,819 crime cases were recorded and registered. This demonstrates a 4% decrease in crime cases when compared to 2015. Translated into raw figures, this shows a decrease of 821 crime cases.

3.1 Detection

The year 2016 recorded a 66% detection rate compared to 57% in 2015. This is an increase of 9%. There are multiple factors contributing to the rise in these figures, such includes; improvement in police mobility, staff training, higher commitment to KPIs, to name a few.

3.2 Offence Category Distribution 2016

- I. Offences against The Property (Prop) recorded 53.6% of the Offences;
- II. Offences against The Person (Per) recorded 26.8%;
- III. Other Offences against Crimes Decree (CD) recorded 9.3%;
- IV. Offences against Public Morality (PM) recorded 8.5%;
- V. Offences against Lawful Authority (LA) recorded 1.7% and,
- VI. Offences Against Other Acts recorded 0.1% of the overall offences(s).

3.3 Divisional Distribution of Crime

Table 1.0 Divisional Distribution of Crime

11.0 VICTIMS

Victim(s) of crime are a pivotal element of determinant to police crime statistics. This section contains information relating to the victims of crime. They do not provide a unique victim count as one person may be counted several times if they were the victims of more than one crime.

For example, the victim of a robbery of a bank is the Banking Company rather than the teller. The number of companies, which were victims of crime, are also included and this is shown in the tables to follow.

Tables in this section also display the total number of victims of crime on ethnic distribution and gender.

11.1 Victims Distribution Pie Chart

The above chart shows that the victims are divided into five categories namely Males, Females, Companies, Government and Others.

The victim distribution for the year 2016 is as follows:

- Male Victims - 57%
- Female Victims - 37%
- Companies (Comp) - 3%
- Government (Govt.) - 1%
- Others (Restaurant, Churches, Temple, Schools, Supermarket, Resort, Hotel etc.) - 2%

12.0 OFFENDERS

Offender data refers to the number of offences detected through an action against an offender. As such, offender data does not equate to a unique offender count, nor does it equate to the number of offences solved. For example, an offender charged with Theft, Aggravated Robbery and Burglary would be counted three times.

Under Fiji Law, it shall be conclusively presumed that no child under the age of ten years can be guilty of any offence. Juvenile offenders are those below the ages of 18 years. Age refers to the offender's age during the time of his apprehension by police.
